

Garden Club members are cordially invited to a tour of The CT Science Center with a dedication ceremony of the Children's Garden on the 6th floor followed by lunch. Two important notes from Aaron Wartner at The Science Center are: One, we cannot accommodate everyone during operating hours in one single space inside the Science Center for a lunch time event. Two, our roof garden capacity is 50 people per the fire marshall, so we need to look at two shifts for attendees. Parking will be a separate fee of either \$7 or \$5. Hope to see many of you there. Please contact Donna Nowak at 860-568-3724 or donnanowak2011@comcast.net for information.
